Sept 2015 - Dec 2018

Internet Communications Technology, Applied Science

Sheridan College - Associates Degree

Sept 2009 - Apr 2013

Bachelor of Fine Arts (Honours)

York University - B.F.A (Hons), minor in English

Work History

Jan 2019 - Present

Cyber Risk Consultant (SIEM implementation)

Deloitte - Vaughan, Ontario

- Responsible for deployments of Security Information and Event Management (SIEM) architecture for Deloitte clients. Scope of projects involved technical pre-planning, performing project estimates, configuration of SIEM servers and components, and providing key deliverables to clients. (HP ArcSight, Splunk, IBM QRadar, LogRhythm)
- Performed SIEM infrastructure analysis and ensured proper gap remediation for new-client onboardings.
- Creating technical documentation and troubleshoot issues for existing state state environments.
- Performed KT and training for new hires/analysts on SIEM function and Deloitte workflow/processes.

Sept 2017 - Aug 2018

Cyber Risk Analyst, Infrastructure Engineering

Deloitte - Vaughan, Ontario

- Support of maintenance & up-time of RHEL/CentOS based infrastructure and SIEM components through change management tickets.
- Responsible for OS and software vulnerability management, storage management and planning, and appliance health checks.
- Assist in management of Deloitte infrastructure applications (such as Active Directory, SolarWinds, etc.).
- Developed applications/scripts in Python to streamline/automate the workflow processes of the security operations centre.

Jan 2017 - May 2017

Enterprise Network Engineering (co-op)

BlackBerry - Waterloo, Ontario

- Primary responsibilities consisted of providing support for the BlackBerry enterprise network engineering team through networking & firewalls change requests.
- Processed RMAs with vendors for network devices and performed maintenance changes for WAN circuits for all major carriers such as AT&T, Verizon, etc.
- Provisioned, mounted, racked, and cabled network devices within the enterprise data-centre.
- Led the daily SCRUM meetings for the ENE team, covering all changes to be implemented for the global BlackBerry network.

Certifications

In Progress

AWS - Solutions Architect

TBD

Sept 2018

Splunk Certified Power User

ID: 253598

Sept 2017

Cisco - Cyber-Security Operations (CCNA)

Cisco ID: CSC013002003

Aug 2016

Cisco - Routing and Switching (CCNA)

Cisco ID: CSC013002003
